

Postdoctoral Scholar
Department of Communication Studies
University of California, Los Angeles

The Department of Communication Studies at UCLA is recruiting for a Postdoctoral Scholar to help develop a computational model of team networks and collaboration.

The successful candidate will collaborate with Professor PJ Lamberson on an NIH funded project examining the characteristics of successful teams, the leading indicators of impending team failure, and potential policies for increasing the productivity of team science and problem solving. The project will employ a computational agent-based modeling approach. In addition to collaborating with Professor Lamberson, the postdoc will also have the opportunity to work closely with other members of the project team including Nosh Contractor, Leslie DeChurch, and Brian Uzzi from Northwestern University's School of Communication, Kellogg School of Management, and the Northwestern Institute on Complex Systems (NICO). A wide variety of disciplinary backgrounds will be considered. Key qualifications are experience with computational modeling, complex systems, and network analysis.

To apply, please send:

1. A cover letter explaining your interests and qualification for the position
2. A CV, and
3. At least two letters of recommendation

to pj@social-dynamics.org.

Applications will be considered as they are received, and the position will remain open until filled.

The University of California is an Equal Opportunity/Affirmative Action Employer. All qualified applicants will receive consideration for employment without regard to race, color, religion, sex, national origin, disability, age or protected veteran status. For the complete University of California nondiscrimination and affirmative action policy see:
